6. RATE CHANGES-TARIFF

The company shall notify the Contracting Officer in writing of any rate changes applicable to services listed hereon and to services provided by subsequent modifications hereto. The notification must clearly identify the item(s) of service affected by the change, the new rate, effective date, approving authority, and approval authority number. Upon receipt of proper notification from the base, via AF Form 1218, the Contracting Officer will modify this CSA to reflect this change.

a. Payment for services at the changed rate is authorized for a maximum of three monthly billing periods without modification to this CSA, provided: (1) All bills submitted by the company clearly identify the change to the satisfaction of the paying office, (2) all items as to which the increase applies are already authorized under Section II SCHEDULE, and (3) a maximum limit authorization exists in Section II SCHEDULE, which represents availability of funds for payment of the increase in the price authorized for the item affected. If, at the end of the three monthly billing periods, the CSA has not been modified to authorize the new rate for the items affected, no further payment will be made and the authorization for this service shall be deemed to be terminated. Correction of any misapplied rates shall be retroactive to the effective date of the rate change.

b. Services ordered by the Base Communications Officer or his designee, by issuance of a local order (DD Form 1367) will be at the new rate without regard to the price reflected on the CSA prior to issuance of a CSA modification to reflect the new rate.
